## Check out procedure

**Mandatory:** the yacht must return to the base the evening before disembarkation by 18:00 the latest.

To help us be of better service please advise our Base Manager of your expected arrival time to base, in advance. Upon your return and after mooring your boat at the indicated berth in the marina, you will need to refill the fuel tank on the spot in the marina. For more information, please ask the Base Manager. Our staff will be waiting for you where the yacht was moored on the day you departed from the marina.

If during your trip you have noticed any sort of problem or malfunction of the yacht, we would be very grateful if you could advise our staff timely fashioned. It is essential to maintaining a high-quality fleet of yachts for you, that you provide us with any remarks regarding the function and the condition of our vessels, even minor ones, as we believe that detail makes the difference.

During check-out you are kindly asked to allow our staff to come aboard and inspect the yacht and her equipment; your presence is not mandatory so you will not be wasting any time on this. This inspection is detailed, as we need to assure that the yacht will be in perfect condition, not lacking any inventory, for the following clients chartering her after you. After every charter, the yacht is also inspected underwater by the diver so as to avoid any inconvenience.
